4. Travelling in town

Bus and tram (operator: Carris)

Lisbon has a good bus and tram network connection. Don't leave the city without trying tram number 28 that goes over the castle hill, and tram number 15 that goes to Belém. Beware of pickpockets! To get on buses and old trams use only the front door and validate your 7 Hills or Zapping card at the little yellow machine behind the driver.

Schedule

Running daily from 5-6am to 1am.

There are some night buses running in the busiest areas.

Price

"Zapping" is a multimodal ticket. You can load money on your card, enabling you to make trips both on Carris or Metro, as long as you have enough money on the card. The card can be bought on Carris and Metro concessionaries, it has a price of 0.50 € and is rechargeable. The minimum value to load is 1,50 € and the maximum 10€. For trips with Carris, the price is 0,81€ and is valid for 1 hour. If you buy the ticket from the driver: 1,40€ per ride.

Metro

There are 4 lines (blue, yellow, green, red) that cover downtown and the modern districts. Useful words: correspondência (transfer between lines), saída (exit to the street). The stations are modern and some of them are public art sites. A red "M" marks the stations on the outside.

Schedule

Tickets must be purchased at the machines and validated at the gates before entering.

Daily from 06:30am - 01:00am.

Price

Single ticket: 0,80€ / 2 way ticket: 1,45€

7 Colinas pass: 10 tickets: 7,30€ or 0,73€ for each ticket, just for Metro. You can ask to recharge the pass with Zapping credit so it is valid for metro and buses for the same price.
